Nuclear Engineering and Design

CONTENTS OF ISSUE 173 (1–3)

Topical Issue

Nuclear Research and Development in Russia

Guest Editor: A. Gagarinski

Introduction 1

Nuclear power in the Soviet Union and in Russia
V.A. Sidorenko 3

Nuclear power of the 21st century
N. Ponomarev-Stepnoi 21

Nuclear power at the next stage: cost-effective breeding, natural safety, radwastes, non-proliferation
E. Adamov and V. Orlov 33

Status and further development of nuclear power plants with WWER in Russia
G.L. Lunin, V.A. Voznesensky, V.G. Fedorov, M.F. Rogov, V.M. Berkovich and I.V. Kukhtevich 43

Status and prospects for pressure-tube water-cooled graphite-moderated reactors
E.O. Adamov, I.I. Grozdov, A.A. Petrov, Y.M. Cherkashov, E.V. Burlakov and A.Y. Kramerov 59

Operation experience of the BN-600 fast reactor
Y.K. Buksha, Y.E. Bagdassarov, A.I. Kiryushin, N.G. Kuzavkov, Y.L. Kamanin, N.N. Oshkanov and V.V. Vylomov 67

State of the art and prospects of fast neutron reactors
A.V. Zrodnikov, F.M. Mittenkov, V.M. Poplavsky and A.I. Kiryushin 81

Bilibinsakya Nuclear Power Plant: 23 years operation in the specific conditions of the Russian far north-east
V.V. Dolgov 87

New generation medium power nuclear station with VPBER-600 passive safety reactor plant
F.M. Mitenkov, G.M. Antonovsky, Y.K. Panov and B.I. Runov 99

Nuclear district heating plants AST-500. Present status and prospects for future in Russia
O.B. Samoilov and A.V. Kurachenkov 109

Project of the GT-MHR high-temperature helium reactor with gas turbine
A.I. Kiryushin, N.G. Kodochigov, N.G. Kouzavkov, N.N. Ponomarev-Stepnoi, E.S. Gloushkov and V.N. Grebennik 119

Nuclear energy sources on the basis of integral reactors
A.A. Belyaev, A.V. Kurachenkov, Y.K. Panov and O.B. Samoilov 131

The next generation of fast reactors
E. Adamov, V. Orlov, A. Filin, V. Leonov, A. Sila-Novitski, V. Smirnov and V. Tsikunov 143

PII S0029-5493(97)00238-0

Harmonization of fuel cycles for nuclear energy system with the use of molten salt technology
P.N. Alekseev, V.V. Ignatiev, S.A. Konakov, L.I. Menshikov, N.N. Ponomarev-Stepnoi, V.N. Prusakov, V.A. Stukalov and S.A. Subbotine 151
Activities in the field of small nuclear power reactors
Y.D. Baranaev, V.V. Dolgov and Y.A. Sergeev 159
Inherently safe pool-type reactor as a generator of low-grade heat for district heating, air conditioning and salt water desalination
E.O. Adamov, Y.M. Cherkashov, A.A. Romenkov, V.I. Mikhan and V.I. Semenikhin 167
Self-contained co-generation nuclear power plant with integral nuclear reactor designed for remote and difficult-to-access areas
L.A. Adamovich, G.I. Grechko and V.A. Shishkin 175
Small nuclear heat and power co-generation stations and water desalination complexes on the basis of marine reactor plants
F.M. Mitenkov and V.I. Polunichev 183
Nuclear steam supply system with an integral nuclear reactor for a floating NPP
A.N. Achkasov, G.I. Grechko and V.A. Shishkin 193
Merchant marine nuclear-powered vessels
N.S. Khlopkin and A.P. Zotov 201
Use of lead–bismuth coolant in nuclear reactors and accelerator-driven systems
B.F. Gromov, Y.S. Belomitcev, E.I. Yefimov, M.P. Leonchuk, P.N. Martinov, Y.I. Orlov, D.V. Pankratov, Y.G. Pashkin, G.I. Toshinsky, V.V. Chekunov, B.A. Shmatko and V.S. Stepanov 207
Economic competitiveness of the new generation of NPPs with NP-500 units in Russia
A.A. Afanasiev, L.A. Bolshov and A.N. Karkhov 219
Development of the methodology and approaches to validate safety and accident management
V.G. Asmolov 229
Safety of fast neutron reactor power units under operation and design in Russia
Y.E. Bagdassarov 239
Severe accident codes status and future development
L. Bolshov, V. Strizhov and A. Kisselev 247
Chernobyl experience of emergency data management
L. Bolshov, I. Linge, R. Arutyunyan, A. Ilushkin, M. Kanevsky, V. Kiselev, E. Melikhova, I. Ossipiants and O. Pavlovsky 257
Strategy of active waste management in the Russian Federation
A.S. Polyakov, L.A. Mamaev, O.L. Masanov and K.P. Zakharova 269
The raw material and waste activity balance in the projected nuclear power of Russia
E.O. Adamov, I.K. Ganev, A.V. Lopatkin, V.G. Muratov and V.V. Orlov 277
Russian plutonium policy
N. Ponomarev-Stepnoi and D. Tsourikov 293
Reactors-related utilization options of weapons plutonium being released from the defence program
A.V. Zrodnikov, V.M. Poplavski, M.F. Troianov, A.N. Chebeskov and A.G. Kalashnikov 301
Status of and prospects for development of fuel elements and materials for water-cooled reactors in Russia
M.I. Solonin, Y.K. Bibilashvili, A.V. Nikulina, F.G. Reshetnikov, V.A. Afanasiev, I.I. Rozhkov, A.A. Enin, A.K. Panyushkin, V.A. Tsibulya, V.A. Ovchinnikov, V.A. Tsykanov, V.N. Golovanov and A.V. Smirnov 311
Development of alternative fuel assembly for WWER-1000 reactor
M.I. Solonin, Y.K. Bibilashvili, N.B. Sokolov, A.K. Panyushkin, V. Tsibulia, O.B. Samoylov, V.B. Kurilev, V.S. Kuul, V.B. Kaidalov, R.A. Peskov and V.F. Ershov 327

Basic results of the Russian WWER-1000 surveillance program
A.M. Kryukov, Y.A. Nikolaev, T. Planman and P.A. Platonov 333
Simulation of power plant fuel elements behaviour under accident conditions on the basis of heat, mechanical and hydraulic problems integration
A. Tutnov, A. Tutnov, E. Alexeev, A. Ulianov and T. Andryanova 341
The development and creating of new-generation full-scope simulator and new technology of simulation
N.N. Ponomarev-Stepnoi, V.A. Lebedev, M.M. Khudiykov, S.D. Malkin, V.V. Shalia and I.D. Rakitin 349
